

**TCM Review Seminar's
Guide to Quick and Easy Points You Don't Want to Miss on Your Board Exams**

Students often want to overlook these categories when studying for their exams. Common excuses we hear are: ***"It's too much information and only a few will be seen on the exam,"*** or ***"It's too specific."*** Learning the information in these categories can really bump up your score on acupuncture board exams. Every point counts so make sure you use this list.

Check off the category as you MASTER the information.
